Morning Update

What did I do yesterday? (DONE):
- I worked on making a new component for sub folder
- I wrote some test for checking if data are received from endpoint

What will I do today? (TO-DO)
- I want to perfect the routing for the sub folder component

What is getting in the way of my work? (ISSUES)
- I have some issue testing some function from api calls

Mid-day Update

Which of today's TO-DO's have I ticked? (DONE):
- I have being able to create a new component for sub folder a user can now route to a Folder using the parent folder id.

What is getting in the way of my work? (ISSUES):
- None
